

# HyperSaddle XC49

## DESTINATION

X-Country use only. Max rider weight 90kg.

## WARNING

- Never hang the bike from the saddle. Never put HyperSaddle in contact with sharp objects.
- HyperSaddle requires a "carbon-friendly" seatpost that accepts 8.5x6mm oval saddle-rails. Seatpost clamp should touch saddle-rails only with smooth and well rounded surfaces, never use the aluminum "half-moon" seatpost clamp.
- Carbon-fiber structural parts are extremely sensible to impacts. Even a small impact against a hard object can damage the composite fiber structure. Thereafter, despite the extremely careful engineering, HyperSaddle should be used only on well paved roads and with proper riding ability.
- Always replace the part in case of damage or after a crash. Never ride a damaged or fractured part. Fractured fibers can be extremely sharp and dangerous.
- Do not expose the part to chemical agents, solvents nor to high temperatures (over 70°C/160°F). Avoid to leave carbon parts stored in car under a hot sun or exposed to direct strong sunlight for long time.

## INSTALLATION

Make sure that the seatpost is compatible with highly oval carbon seat rails. Remove sharp edges, burrs and any contamination from the clamping surfaces. Rework these areas if necessary. Clamping surfaces in direct contact with the saddle must be radiused to at least 2mm. All clamping surfaces should be clean and de-greased. Maximum tightening torque: M5 bolts --> 4 Nm

## Extralite Limited Warranty

Extralite products are warranted against defects in materials and/or workmanship for a period of two years from original date of purchase to the original owner only.

Any Extralite product that is returned and found by Studio Riva to be defective in materials and/or workmanship will be repaired or replaced at the sole discretion of Studio Riva. This warranty is the sole and exclusive remedy. Studio Riva shall not be held liable for any indirect, special or consequential damages. The warranty is expressly limited to repair or replacement of the product that has been returned and found to be defective by Studio Riva and are the sole remedy of the warranty. No credits or refunds will be issued.

The warranty does not cover: normal wear, tear and fatigue; damage or failure due to accident or collision. Improper assembling, poor maintenance, alterations or modifications, installation of parts not compatible with Extralite products void this warranty. Warranty does not cover damage arising from crash, abuse and/or misuse or any other circumstances in which the product had been subjected to forces or loads beyond its design.

Immediately replace the component after crash and violent shock, or after continuous heavy use.

Improper use, modification and/or part changing, including surface finishing, could irreparably damage the component.

All labor charges for warranty service are responsibility of the product owner.

### INSTALLATION WARNING:

Extralite components are extremely performing and lightweight, crafted with very high quality, they request adequate installation and maintenance care. We strongly recommend that a professional bike shop install and service your Extralite components. Improper assembly and/or adjustment may significantly compromise strength and durability of the component causing serious personal injury.

Carefully check proper tightening torque of every bolt. Always respect installation recommendations.

Extralite components are designed for a specific use X-Country or Road or Downhill, respect product specific destination.

Note: the rider assumes all the risks regarding use and installation of Extralite components.
